R (BGU course)

Jonathan Rosenblatt

2017-02-03

Contents

1 Preface **5**

2 Introduction **7**

3 Exploratory Data Analysis **9**

4 Linear Models **11**

5 Generalized Linear Models **13**

6 Linear Mixed Moxeld **15**

7 Multivariate Data Analysis **17**

8 Supervised **19**

9 Unsupervised **21**

10 Reports **23**

11 Parallel Computing **25**

12 Memory Efficiency **27**

13 Sparse Representations **29**

14 Convex Optimization **31**

15 RCpp **33**

16 Numerical Linear Algebra **35**

Chapter 1

Preface

Chapter 2

Introduction

Chapter 3

Exploratory Data Analysis

Chapter 4

Linear Models

Chapter 5

Generalized Linear Models

Chapter 6

Linear Mixed Moxeld

Chapter 7

Multivariate Data Analysis

Chapter 8

Supervised

Chapter 9

Unsupervised

Chapter 10

Reports

Chapter 11

Parallel Computing

Chapter 12

Memory Efficiency

Chapter 13

Sparse Representations

Chapter 14

Convex Optimization

Chapter 15

RCpp

Chapter 16

Numerical Linear Algebra

Bibliography
